

The Leadership Challenge

Student Leaders play a vital role in setting the right tone and upholding the values of a school. When the student leadership team work effectively with staff & students to deliver this outcome, a successful school culture emerges.

The Leadership Challenge (TLC) is a ½ day workshop for School Leaders & is designed to help them:

1. understand & develop an **inspiring vision & goal** to lead others effectively;
2. harness their ability to **motivate** students to become actively **involved** in school life;
3. build **strong relationships** with staff & students to accomplish set goals & establish a successful school culture; &
4. embody the **essential attitudes** required for successful leadership.

Student evaluations consistently rate TLC 9 out of 10 because it is based on the '**how to's**' of leadership & not merely theories that lack utility. The **practical** nature of the workshop involves students:

- writing, reflecting & discussing to help them digest the concepts being taught; &
- role playing to simulate 'real' situations so that the learning is contextualised & meaningful.

To bring everything together **experientially**, Darren runs a fantastic Leadership & Team Building exercise to help embody the leadership skills they learn & bring the students together to work as a harmonious group.

Darren creates a **fun & entertaining** learning environment using a unique blend of:

- **humour** to engage the students;
- **music, powerpoint & video** presentations to enhance learning;
- **proven leadership principles & useable techniques** for immediate application;
- **powerful tools & exercises** to equip students with the fundamentals to lead others effectively...and much more.

"...since doing the seminar I...feel...a lot more prepared...confident...and have better skills [in] dealing with people and communicating...Since hearing you speak...today I am now inspired and encouraged to...be a really positive leader within the school community."

Laura Burchell – School Captain

The Leadership Challenge

Darren relates exceptionally well to students in leadership positions because he has been a school Sports Captain & Volunteer Youth Leader for over 10 years. Using the very principles he teaches in the seminar, Darren went from being the worst performer in the nation, to being the **No. 1 Business Development Manager & Leadership Coach** in Australia at age 25.

So, if you want your students to be equipped with **usable strategies** that will help them to be outstanding leaders, then contact Darren today as he books out fast!
