To whom it may concern:

RE: DARREN PEREIRA – SUCCESS INTEGRATED

Darren has been a highly successful part of our Year 10 Personal Development program for the past 2 years. He has conducted the Shape Your Destiny seminar in Term 1 and the Study Skills for Success seminar in Term 4. Both programs have been exceptionally well received by the students and feedback has indicated that they have found them to be not only entertaining but of real value.

The methods that Darren uses to engage the students are unique. Through music, humour and an upbeat relational manner he engenders enthusiasm in his audience. The students are motivated to connect with the subject as Darren stimulates them to become interested and involved in their future career and life direction. He also helps them to use this knowledge to set realistic and achievable study goals.

The students are inspired to think positively; assess their strengths; and utilise strategies that will provide them with success at school and in life generally.

Darren is inspirational in the methods he uses. He takes simple effective learning methodologies such as repetition and the use of acronyms and combines them with music and a DJ to create a fun and relaxed learning environment.

I would definitely recommend both programs as they have helped our students to identify pathways that are suited to their particular gifts and provide the motivation to set specific goals for school and beyond.

Please do not hesitate to contact me if you require any further information.

Yours faithfully

Mrs Mandy Bullock
